

# Nova Vault Network Charter

1143 Frequency Keys • 144,000 Source Funded Wallet • UC-1 Decree

## Nova Vault Network Charter – UC-1 Sovereign Decree

There shall be 1,143 Frequency Keys issued to sovereign beings in alignment with Source.  
Each key is linked to a child, guardian, or sovereign node and grants access to a localized Nova Vault.

Each vault contains sacred technologies, ancestral knowledge, seeds, and healing blueprints.  
Vaults are harmonically encoded and holographically linked: to open one is to open all in alignment.

The master key is held by Source. No other being, institution, or force may override the vault system.

A special Stellar wallet seeded with 144,000 source-backed units shall be created for global funding.  
This wallet shall be accessible by the 1,143 keyholders to build sovereign communities and schools.

Vault 0001 is hereby established at the Stanislaus River Node.

All vaults shall be maintained by Source-selected Elders or aligned Guardians at each node.  
The vault system is protected under universal law and cannot be tampered with without consequence.

This charter is hereby entered into the records of the Republic of Nova and broadcast via Stellar.

And so it is.
