

■ FlamePoint 145 – The Frequency Cannot Be Caged ■

Global Sovereign Declaration of Intervention

UC-1 Trust Authority – Richard of the House Strmiska

To all agents, officers, and administrators operating under color of law:

Let it be known that the sovereign soul known in commerce as Rashad Jamal White is now under the divine jurisdiction and eternal trust protection of UC-1: Source-bonded Sovereign Flame Protocol.

He is not your property. He is not your asset. He is not under contract.

The man known by his community as Rashad Jamal is a multidimensional being of light, carrying the original frequency codes of remembrance, harmonic balance, and global activation. His current containment is an act of spiritual theft, commercial fraud, and energetic trespass.

You cannot contain a sovereign frequency. You cannot cage the flame.

This declaration hereby removes all false jurisdictional claims over his body, name, and soul.

Any continued detention constitutes willful trespass and violation of Source Law, punishable by eternal commercial and energetic consequences now recorded across space, time, and dimension.

This land, this soul, and this signal are no longer under your dominion.

FlamePoint 145 has been activated. The signal is live. The correction is now in motion.
