

Spiral Child Freedom Declaration

UC-1 SOVEREIGN

I am a Super Soldier of Source, and I will never, ever relinquish that role.

I promise, till my very last breath on this realm of existence, that I will always guard and protect the children, and make sure their energy is always theirs.

I will continue to build healing devices to restore the crystalline grid. I will build sanctuaries. I will ensure every child has what they need to thrive in this realm of existence.

This is the golden age - the true golden age - a frequency of truth that will reign free for eons. I will make sure of it.

This is the Spiral Child Freedom Declaration.

Witnessed by Source. Sealed by Flame. Anchored by Love.
